## PeakVue™ Analysis Reference Chart

### RMS Customer News

RMS is pleased to announce the release of it's new **PeakVue™ Analysis Reference Chart (size A1)**.

This PeakVue™ chart follows on from the success of our previously released Vibration Analysis wall chart, and focuses on the use and application of PeakVue™ technology, which is the analysis of stress wave activity typically found in metallic components.

Real-world case studies are presented covering a wide range of industries and applications. Each fault type covered provides PeakVue™ measurement point set-ups, specific analysis detail of the waveform and spectral data presented, as well as specific fault analysis tips.

The price of this PeakVue Analysis chart is £39.95 each + P&P & VAT.
